| PHILIPPINES | USA

CIBES DIRECT OWNED FACTORIES

Gävle, SE | Jiaxing, CN | Roanoke, USA

APPROVED DEALERS IN:

70+ Countries

WORDS FROM OUR CEO,
PER LIDSTRÖM

One does not build a company that lasts over 70 years without an unwavering commitment to customer satisfaction. Cibes fully embraces the Scandinavian ethos of reliability, which is why we are uncompromising when it comes to the quality of our products, the elegance of our designs and our commitment to safety. From the start, our best marketing has always been our existing customers, and the 100,000 lifts we have installed around the world continue to be a driver of our success. At Cibes, we know that our happy customers are the key to our longevity, and we look forward to having you join the Cibes family!

Per Lidström

CEO, CIBES LIFT GROUP

ABOUT

CIBES LIFT GROUP IN 2023

290

MILLION EUROS

In turnover in 2023

1,635

EMPLOYEES

Across the world

100,000+

LIFTS INSTALLED

In 70+ countries

SPACE - SAVING TECHNOLOGY

NO MACHINE ROOM

Minimize civil works and able to open up on last floor without damage to roof area

ALL GLASS SHAFT

Able to do 360 glass shaft for a panoramic ride

SUPERIOR QUALITY

From our glass (laminated and tempered) to our shaft (aviation grade aluminum with premium custom powdercoat), every detail of our lift is carefully studied to offer the best quality.

CABIN DESIGN

Our lifts are platform lifts, which saves space, creates a feeling of openness and avoids locking you inside a cabin.

NO PIT

Our lift requires no pit - as low as 0 mm and maximum 100 mm. Easy to install anywhere!

SCREW DRIVE SYSTEM

Your lift is always attached to our screw and cannot "fall down".
Silent and energy efficient

TOUCH AND LIGHT

Our Cibes lifts come with full touchscreen to offer a modern design that can match any interior

ANTI-STUCK SYSTEM

Battery back up, reset tag on door, phone and emergency openings – we have you covered even if the worst were to happen!

HISTORY OF SCREW - DRIVE SCREW-DRIVE GENERATIONS

4th GENERATION
ECOSILENT 2.0

- **Reduced oil use:** no oil on guiderails, auto-lubricating system on screw, >200 mL of oil / year!
- **More energy savings:** 1.5 kW motor
- **Silent operation:** new screw pitch and silent box for sound as low as 40 dB
- **Reduced maintenance:** as low as once per year

Includes all
2nd Generation / Smart Lift features

2nd GENERATION
SMART LIFT

- **Mechanical System:** all functions were mechanical and not driven by software
- **Lower Travel Height:** 13 m

1st generation lifts were **discontinued** in 2017 for all Cibes Lift Group products

1st SCREW-DRIVE
ELEVATOR

1793

HISTORY OF SCREW - DRIVE SCREW-DRIVE GENERATIONS

2022

- **Even Safer Lift!** – light curtain upgrade for safety edges for near-instantaneous stops, 2N dialer to ensure always functional phone
- **Even Smoother Ride** – Upgraded XXL rollers for an ultra smooth guiderail connection
- **Connected Lift** – connected to our Cibes Control Center for monitoring and remote assistance if needed

Includes all
2nd Generation / Smart Lift features

3rd GENERATION
ECOSILENT

- **Smart Operating System:** digital OS (i.e. software)
- **Safer Lift** – thanks to our CiCon System, our lift can be SIL-3 certified, the second highest Safety Integrity Level there is
- **Reset RFID Tag** – you can reset the lift yourself – no need to wait for one of our technicians
- **Warning Systems:** e.g. low battery system
- **Fault and Breakage Record:** keeps track of all key metrics e.g. travel distance, number of faults and reason to help improve repairs
- **Higher Travel height:** from 13 to 20 m!
- **Advanced Features:** e.g. floor specific locks

2019

2017

1990s

1st GENERATION
MECHANICAL

Invented for the Russian empress Catherine the Great by inventor Ivan Kulibin, the 1st screw drive elevator was installed in the imperial palace The Hermitage in St. Petersburg

SAFETY IS IN OUR DNA

SWEDISH FOCUS ON QUALITY

SCREW DRIVE TECHNOLOGY:

LIFTS THAT CANNOT “FALL DOWN”

Screw-drive technology is unique in the market in that the lifting cabin or platform is always attached to a toughened steel screw. The movement behind the “lifting” is not a pulling motion through cable or belt, but a rotation of a nut around the screw.

This revolutionary system ensures that Cibes Lift platforms and cabin cannot be “cut off” or enter freefall because of cable and brake failures. Instead, they are always connected to the steel screw that runs the length of the whole device.

Thanks to this technology, our screw drives are able to meet not only the extremely high European Safety Standards but also those of our other markets around the world, including but not limited to the USA and Australia.

WHY CUSTOMERS CHOOSE CIBES

OUR SAFETY STANDARDS

STANDARDS

All our lifts not only follow the strictest of European and international standards, but we even strive to respect recommended local standards in each of our markets.

SAFETY CERTIFICATIONS

Beyond certifying every lift with the European Lift Instituut, a certification agency specialized in lifts, all our lifts are **Safety Level Integrity 3** certified and our production **ISO 9001**

NATIONWIDE, 24/7 COVERAGE

We may be a global company, but we are hyperlocal for our customers. Our hotline is 24/7, with technicians spread across the country. We are there anytime, anywhere.

ANTI-TRAP SYSTEM FOR EMERGENCIES

All our lifts are equipped not only with an emergency battery lowering system in case of power failures, but also a reset system. Gen 4 also has manual lowering in pit!

LIGHT CURTAIN FOR LASER-FAST SAFETY

The combination of Cibes light curtain to stop near instantaneously in emergency situations, and the cabin design of our V70 / V90 allows us to reach a new level of safety.

INTERNET CONNECTED LIFTS - CIBES MONITORING CENTER

Our newest generation of lifts can connect to the internet for monitoring by our system, allowing us to better plan preventative maintenances and improve support!

WHY CUSTOMERS CHOOSE CIBES

MEET OUR AFTER SALES TEAM

All our customers agree – the main reason to choose a Cibes lift is not our cutting-edge products or our expert sales team – **it is the quality of our After Sales Service.**

As soon as you book your lift with us, you will be entrusted to our Customer Care team with your appointed representative. They will ensure that:

BEFORE INSTALLATION

- Liaising with your construction team to prepare site & delivery
- Checking that site is correctly prepared and ready for installation

AFTER INSTALLATION

- Checking that installation is in line with our strict quality standards
- Delivering handover and product training on how to use your lift

... AND FOR THE DECADES TO COME

- Tracking and arranging timely maintenances
- Coordinating repairs, spare parts & fixes (if needed)
- Handling any customer requests / upgrades and more!

- Soniya, Head of After Sales

How do we know that our customers love our After Sales Team?

Referrals are 35% of our new business!

CIBES 1 + 1 + 10 PROGRAM

So confident are we in the quality of our products that we offer a comprehensive 1+1+10 product guarantee.

1 YEAR OF FREE WARRANTY

The only thing more stressful than buying a lift is probably worrying about repairs and problems.

With Cibes, that worry does not exist.

We know that the quality of our materials, craftsmanship and installation creates a one-of-a-kind lift that will last for decades.

In fact, we are even willing to guarantee it, with a FREE 1 year warranty for every single Air or Voyager Cibes Lift that we sell.

Welcome to a new level of worry-free living. Welcome to the Cibes family!

1 YEAR OF FREE MAINTENANCE

Even more important than the warranty is the hidden cost of maintenance. With Cibes, there are no hidden costs: we offer 1 year of maintenance for FREE to every single Cibes Air or Cibes Voyager.

No last-minute additions for labor or spare parts – at Cibes, we want to provide our customers with complete peace of mind.

Most importantly, a Cibes maintenance is no small thing: we only use genuine Cibes Technology™ products, included Cibes Genuine High Performance Oil and Cibes Universal Contact Spray, to ensure that your lift continues to operate smoothly for decades!

10 YEARS OF FREE WARRANTY

on the Cibes Lift Screw & Nut, conditional to doing maintenances with Cibes Team timely throughout this period

SHAFT OPTION	Shaftless (V70) / Panoramic (V90)	Panoramic (V80)
LOCATION	Indoor or Outdoor	
SPEED	0.15 m/s / 0.25 m/s	0.15 m/s
GLASS	Tempered & Laminated	

WHAT ABOUT SPEED?

0.15

Our standard and recommended speed for optimal operation.

0.15 m/s is the speed that is recommended by the EU En81-41 machine directive for our range of platform lifts, which we also extend to our full range of products.

0.25

Thanks to our cabin design and light curtain safety edges, we are able to offer a faster speed of 0.25 exclusively on the V70 / V90 line when using 3-phase power without compromising safety in any way.

Enjoy a faster ride in full safety!

ENTRY-LEVEL MODELS

CIBES UNO

PLATFORM LAYOUT

SWEDISH MINIMALISM

Our Uno Control panel is Swedish minimalism at its best: functional, easy to press buttons on a nicely curved COP - simple and sweet!

MECHANICAL CALL BUTTONS

Our Uno Mechanical Call Buttons are designed to be simple and easy to use, with a discrete style echoing the Control Panel!

CIBES ALTO

PLATFORM LAYOUT

ALL WHITE SHAFT

Available in steel or glass (only 3 sides on the Alto!), our shaft comes in only one color: pristine white!

GREY IRON FLOORING

Our standard flooring by Forbo is simple and beautiful, perfectly complementing our all white shaft with a touch of dark grey!

OUR KEY DIFFERENCE

EXCEPTIONAL AFTER-SALES

THE FACTORY-DIRECT AFTER-SALES PROMISE

Cibes Lift India Pvt. Ltd. knows that the secret to its phenomenal success has been its best-in-class after-sales service. Over 35% of our business comes from referrals. This is because Cibes has focused on a factory-direct strategy for its technical team as well:

- **NO OUTSOURCING!**
- **TECHNICIANS TRAINED FROM SWEDEN**
- **LOCAL SPARE PARTS WAREHOUSE**
